An Industrial visit was organized by the college to Usher Agro Ltd which is located in Kosi, Mathura. Usher Agro is India's leading agro processing company catering to a consumer base spread across the country and overseas. Usher Agro deals in Rice, Wheat and Pulses. Its flagship brand **RASOI RAJA** is a common household name in India and abroad and a epitome of credibility and quality delivered by latest technology. Very big machines were installed in the production department which was doing the work of hours into minutes. Mainly the heavy machines of Netherland, South Africa were installed. The Production Manager demonstrated each and everything related to production of rice very well .AGM of the company came for an interaction with the students and explained the management hierarchy of the organization. Students got the refreshment and also got a chance to gain an experience of corporate sector. Over all it was a very nice experience for all the students. The industrial visit was a grand success and students requested to organize such visits again and again.
